

Title: Water and Sewer Installations

Policy No: 4101

Approval: County Council
Effective Date: January 1, 1994

Supersedes Policy No:

Policy Statement: To establish guidelines for installation of water and sewer service lines to properties within the Hamlet of Blue Ridge and Fort Assiniboine.

1. Where properties have not been serviced and development indicates that services are required, the Woodlands County shall provide installation of lines from the main service line to the legal property line only.
2. Installation of service lines shall be done by contract and by quotation.
3. The cost of installation of the service line from the main line to the legal property line shall be the responsibility of the County.
4. It shall be a condition of development that all lines on private property from the main municipal line must be buried below frost level.
